Chapter 4

Summary: Efforts to find a South African or International Psychiatric or Psychological Organisation or Psychiatrist or Psychologist Professional whose Organisational or Individual Professional Ethics compel them to (i) base their psychological social conflict mitigation and reduction management therapy practice based upon Ecological Reality Facts; and (ii) testify under oath to observable Ecological factual reality in any court of law.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Re: GMC 4643-13 & 2578-14 Respondents, Counsel & Court Officials

The GMC 4643-13 applicants questions posed to International Psychology; copied to the Hoffman Report; detailing our efforts to find a South African or International Psychiatric or Psychological Organisation or Psychiatrist or Psychologist Professional whose Organizational or Individual Professional Ethics has compelled them to (i) base their psychological social conflict mitigation and reduction management therapy practice based upon Ecological Reality Facts; and (ii) testify under oath to observable Ecological factual reality in any court of law; are based on our efforts to proceed and resolve the issues in the GMC 4643-13 and 2578-14 court cases.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Ann and Clive Johnstone have and continue to partially co-operate and negotiate.

All other respondents -- namely: Johnstone siblings; Radical Honesty culture; Frode & Talitha Moe and their counsel -- totally refuse to co-operate or negotiate; justifying their refusal to ignore me or refuse to negotiate based upon overt and covert [behind my back] allegations; that I am 'insane'; suffer from some form of insanity, crazy. I have repeatedly requested them to either apologize or to provide me with their evidence. Specifically (a) their legal definition of insanity; (b) whether their definition is based upon scientific fact; and is consequently relevant to all humans; or is only the definition of one culture; (c) if their definition is only a cultural definition relevant to their own culture; why do they apply their own cultural definition of insanity; to other cultures; such as my own; which has no or a different definition of insanity; (d) evidence for their cultural definition of insanity; irrespective of what culture's definition of insanity they are justifying their allegations upon.

Karin Osler & Ctr for Conscious Leadership: Re: Psych Ethics Question

I have not received any response from the Center for Conscious Leadership to the correspondence I have repeatedly sent you and hundreds of South African and International Psychologists and Psychiatrists.

As stated in such documentation sent to you: Do you know of any psychologists or psychotherapists at the Center for Conscious Leadership or in South Africa whose Organizational or Individual Professional Ethics compel them to (i) base their psychological social conflict mitigation and reduction management therapy practice based upon Ecological Reality Facts; and (ii) testify under oath to observable Ecological factual reality in any court of law.

Ecological Reality Facts being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; (d) To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an [Ecology of Peace international law social contract](#) that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

If so: could you please let me know so that I may contact them.

Long story short:

Lara wrote to me a few times when I was on death row in prison at Terre Haute Prison, Indiana. Her letters were simply like that of a nonjudgmental friend. She was one of the few people who admitted to knowing about the reality of psychotronics and government mindcontrol technology. I never wrote back to her before my scheduled execution; which I knew may be faked. She told me about her marriage to Demian; and what kind of man he was. She wrote about forgiveness through honesty; and wondered if I would be willing to meet with the victims of the Oklahoma City Bombing; and I could help them to answer the questions they did not know; which the court denied them; and perhaps both parties would be willing to address the root causes of my motives; and together we could focus on problem solving; instead of blame game hate. If however, they refused to forgive me; or to work things out with me; and insisted that I be executed; after they had been given the opportunity to get the information they wanted and to focus on problem solving; then if they decided that I should be executed; they should know that they were going to execute me and Lara; and that they would be no different to me; for they would have decided to execute an innocent person.

As documented in [Covert Operations of the NSA](#) John St Clair Akwei; a former NSA employee describes how the NSA can psychotronically manipulate the thoughts and bodily functions of any individual on the planet. Put differently; the NSA or any other nations intelligence agencies; such as Britain's MI6, or Russia's FSB/KGB; or Israel's Mossad; can remotely manipulate the thoughts of any one or more persons; and/or kill any one or more persons; by psychotronically shutting off the brain's signals to the heart; lungs, etc to 'survive and continue living'.

We can also remotely by psychotronics manipulate internal organs in the body; such as induce a heart attack or stroke, pull a tendon or muscle; fill the lungs with water to induce pneumonia [...]; and aggravate an already inflamed intestine to activate an gastrointestinal bleeding attack. We can make you or your dog fart; and much more.

A copy of the [Covert Operations of the NSA](#) document is filed in three court proceedings: (i) John St Clair Akwei vs National Security Agency: Ft George G. Meade, MD, USA (Civil Action 92-0449); (ii) State v Lara Johnstone about the 18 June 2002 PW Airport bomb threat made via the George Herald; (iii) GMC 2578-14: Lara Johnstone v Frode and Talitha Moe.

13 July 2015 APA Hoffman Report Psychological Torture Email to Johnstone Family:

The email [...] received from Lara on 13 July 2015; was an email to Jean Maria Arrigo: Coalition for an Ethical Psychology: Spokesperson; American Psychological Association and Sidley Austin LLP: David Hoffman; informing them of my efforts to find a South African or International Psychiatric or Psychological Organisation or Psychiatrist or Psychologist Professional whose Organizational or Individual Professional Ethics has compelled them to (i) base their psychological social conflict mitigation and reduction management therapy practice based upon Ecological Reality Facts; and (ii) testify under oath to observable Ecological factual reality in any court of law; are based on our efforts to proceed and resolve the issues in the GMC 4643-13 and 2578-14 court cases.

The American Psychological Association contracted lawyer David Hoffman to investigate whether a group of psychologists led by James Mitchell and Bruce Jessen who were members of the APA; who were involved in various 'War on Terror torture practices'; such as: waterboarding were involved in 'unethical practices.'

After the September 11 attacks, the CIA asked James Mitchell to develop an interrogation program to help interrogators to effectively interrogate Al-Qaeda terrorists who were resisting interrogation. Put simply: the CIA wanted to know if Jessen could teach their interrogators to know when one of the terrorists they were interrogating sincerely did not know any question posed to the terrorist; or when the terrorist was hiding or withholding information; by pretending not to know answers to questions from the interrogator. James Mitchell had been a psychologist in the Air Force. In 1988 he became the chief of psychology at the Air Force survival school at Fairchild Air Force Base in Spokane, Washington. Mitchell Survival, Evasion, Resistance and Escape (SERE) training taught American soldiers psychological evasive techniques for how to survive torture if they were captured by AlQaeda and AlQaeda decided to torture them to get military classified information. Interrogation procedures consisted of the interrogator and terrorist suspect meeting in an interrogation room; where they engaged in a

question and answer discussion. If the terrorist cooperated and answered all the interrogators questions as honestly and clearly the interrogation was totally cordial and nonviolent. Enhanced interrogation torture techniques were only used if (a) the terrorist refused to cooperate by refusing to answer questions or (b) used evasive psychological techniques to avoid answering questions; as confirmed by a psychologist as symptoms of evasive techniques used by soldiers to avoid answering questions.

The [enhanced interrogation techniques](#) included prolonged stress positions, hooding, subjection to deafening noise, sleep deprivation to the point of hallucination, deprivation of food, drink, and withholding medical care for wounds; waterboarding, walling, nakedness, subjection to extreme cold, confinement in small coffin-like boxes, and repeated slapping or beating. Interrogators were restricted to conducting the enhanced interrogation according to Judge Jay Bybee's [Torture Memo](#)'s wherein he clearly defined the lawfully approved 'enhanced interrogation techniques'.

There are neurological biological similarities between waterboarding and psychotronic manipulation of brain messages to the body. In waterboarding the interrogator physically restricts the body being tortured from receiving messages from the brain for a period of time ranging from 10 to 40 seconds; by restricting the brains access to oxygen; by covering the beings nose with water. In psychotronic manipulation of brain messages to the body; the brain EMF frequencies are manipulated by shutting them down for a period of time ranging from 10 to 40 seconds; by psychotronically restricting the brain from sending 'continue doing your work to allow the body to survive' messages to the necessary body parts.

Judge Jay Bybee and the CIA's definition of waterboarding is as follows: "In this procedure, the individual is bound securely to an inclined bench, which is approximately four feet by seven feet. The individual's feet are generally elevated. A cloth is placed over the forehead and eyes. Water is then applied to the cloth in a controlled manner. As this is done, the cloth is lowered until it covers both the nose and mouth. Once the cloth is saturated and completely covers the mouth and nose, air flow is slightly restricted for 20 to 40 seconds due to the presence of the cloth... During those 20 to 40 seconds, water is continuously applied from a height of twelve to twenty-four inches. After this period, the cloth is lifted, and the individual is allowed to breathe unimpeded for three or four full breaths... The procedure may then be repeated. The water is usually applied from a canteen cup or small watering can with a spout... [The CIA has] ... informed [Judge Bybee] that it is likely that this procedure would not last more than twenty minutes in any one application."

In [this interview](#) James Mitchell describes psychologists use of waterboarding as a torture interrogation technique to encourage terrorists to change their minds; and start answering the interrogators questions. In [this interview](#) Mitchell answers questions as to his motive for getting involved in enhanced interrogation techniques.

Re: FBI Fraud Complaint: Lara Johnstone v Brad Blanton and Radical Honesty

On 17 October 2013 I notified Brad and the Radical Honesty culture that I am no longer a member of their culture; that I considered them to be a 'Radical Hypocrisy' cult; most definitely NOT a Radical Honesty cult.

I filed a criminal complaint of white collar fraud with FBI Agent Jeffrey Mazanec on 18 February 2012; against Brad Blanton and all the Radical Honesty Trainers. A copy of my Affidavit Declaration to the FBI is attached:

Excerpt summary of the complaint:

Declaration of Former Radical Honesty village idiot, Lara Johnstone, in support of
Complaint of White Collar Fraud against Radical Honesty Cult Founder: Dr. Brad Blanton
(VA), Master Trainer: Taber Shadburne (CA), Corporate Trainer: Greg Small (CA),
Trainers: Dr. Susan Campbell (CA), Raven Dana (OH), Clara Griffin (VA), Stephanie Roth
(CO), Marina Dervan (KY).

Charge: White Collar Fraud: Brief Overview:

If you profit from selling a product that advises people to do something which may get them arrested, convicted and a criminal record; you should be required to inform your students whether you will provide them with 'expert defense advise', or not; if they are arrested for following your expert advice. If you do not intend to provide them with such an expert defense, implying that you may while withholding that you will not, is profiting from withholding important information for them to make a fully informed decision of the risks involved in following your advise, i.e. fraud.

Accused are the trainer members of the Radical Honesty cult (small culture) who profit from advocating 'practicing radical honesty' (sincerely insulting or offending others to reach sincere forgiveness) for personal and social transformation. They endorse the 'No RH Mens Rea Protection' Training policy that (I) the Radical Honesty Guru: Dr. Brad Blanton, is too petrified to practice radical honesty in a court of law, for fearing he will be cited for contempt; (II) the Radical Honesty Lawyer: Maggie Doyle is too petrified to practice radical honesty in a court of law, or her legal practice, for fearing she will be cited for contempt; (III) if RH students practice radical honesty with someone from another culture/religion, who is then offended and then uses 'insult' or 'hate speech' laws to have them arrested; the RH cult will not support a cultural/religious defense; or to support a legal initiative for courts to protect 'radical honesty' as cultural/religious speech.

I was village idiot naïve and assumed that Dr. Blanton was fully in support of all activism to enable a legal 'cultural/religious' defense for 'practicing radical honesty' speech. I supported Radical Honesty amongst all cultures and religions, to address the root causes of differences between religions, cultures and races; to enact sincere root cause problem solving; which 'diplomacy' and 'bullshit arsekissing' has not accomplished in the past 2,000 years; and was willing to get arrested, and file legal applications, in order to set such 'radical honesty' legal multiculturalism precedent.

Dr. Blanton could have clearly informed me when I was arrested, detained, and subsequently deported and banned for insulting an INS officer. He could have – for example – written a letter to the Immigration court, stating that I had done a course with RH, and my 'practicing radical honesty' intentions were sincere, but I was not practicing RH correctly or did not 'get it' and what exactly I did not 'get'. He could have notified me as part of the court record, that he wanted me to clearly and succinctly understand that he under no circumstances, wanted me to pursue activism on behalf of setting legal precedent for practicing radical honesty to be granted legal 'cultural/religious speech' protection. He could have told me: I advise you to insult and offend people, and I will not defend you in any court of law, when anyone is offended by you following my advice.

A copy was also filed in the George Magistrates Courts Case against Brad; to give him the opportunity to provide the civil proceedings court with evidence that my the allegations were erroneous. If he did so; I could then notify the FBI and withdraw my allegations against him. Brad has not bothered so far; to prove the allegations to be untrue.

Fraud complaints filed with the FBI can take months or years to be investigated. When a complaint is filed with the FBI; they investigate it; when they feel they have enough evidence; they take it to the Dept of Justice; who then proceed with the legal criminal proceedings.

For example: Andrew Jennings informed the FBI of his evidence of FIFA fraud in 2011; and FBI spent years investigating the evidence; until a few months ago when the Dept of Justice felt they had a solid case; and then they contacted the Swiss Prosecutors Office and arranged for the corrupt FIFA officials to be arrested on the criminal charges.

Sometimes if the White House are corrupt; and they are protecting someone being accused of criminal behaviour; they can and do go through efforts to pressure the Dept of Justice not to continue with the proceedings; and if the Attorney General refuses; then they get rid of the honest prosecutor. Just like corrupt President Jacob Zuma got rid of the State Prosecutor's who wanted to hold him accountable to the law; like they do all the other citizens.

A copy was also sent to the Chief of Police of the town that Brad lives in; and all the towns that all the other Radical Honesty trainers live in.

FBI Agent Jeffrey Mazanec has not informed me of the status of the FBI investigation against Brad and his 'Radical Hypocrisy' trainers; or whether I need to clarify any aspect of my complaint; or whether he needed more evidence.

Attached is a copy of the Affidavit I filed with the FBI; if you want to read it.

If you want to provide the FBI with your evidence or argument as to what if any support the Radical Honesty community provided me while I was in prison as a member of their Radical Honesty culture; you can contact FBI: Agent Jeffrey Mazanec; via the Virginia FBI office email address (Richmond@ic.fbi.gov)

Hire another psychologist capable of clarifying in buck stops here village idiot English what the fuck the McChrystal Group organizational psychologist tits and ass slut is trying to say; with her use of the term 'psychological safety'.

For example: “As any student of organizational psychology could tell you, the topic of psychological safety is hardly new; in fact, psych safety has been established as one of, if not the, strongest predictor of team success in recent years.”

I am not a student of organizational psychology; and have never pretended to be one. As for “in fact, psych safety has been established as one of, if not the, strongest predictor of team success in recent years.”

What is the tits and ass slut pretending to be a psychologist's definition of 'success'? I imagine, the strongest predictor of any teams success; would depend on what their definition for success is.

It is quite possible that for certain definitions of success; the strongest predictor may be psychological safety; although I have not seen any objective evidence for such a factual statement. Before such a statement can be said to be a fact the individuals would first have to clarify what the groups definition of success was; and then what their definition of psychological safety was; and then clearly show that it was in fact the psychological safety factor; as opposed to any other factor; which was the determinant of them accomplishing their 'success' goal.

Corporations may hire fuck honour organizational psychologists to engage in fraudulent studies about what is or is not the factor in their war profiteering success; but I imagine; if the Pentagon tomorrow decided that they were going on strike; and that they would not be doing any raping, culling and conquering for American corporations; all multinational raping culling conquering corporations would soon go bankrupt; which they are going to be doing anyhow; hence their paranoia for more raping, culling and conquering; so they can bullshit their shareholders they are making a profit. So if 'profits' from raping, culling and conquering non-Americans; and turning the planet into a fucking toxic toilet; are the determinants of these corporations 'success'; were those profits a result of a bunch of fuck honour oligarchs and their corporate cocksucking civilians in corporate offices chatting about 'psychological safety' or the result of Pentagon hired psychopaths obeying fuck honour corporate oligarchs orders to rape, cull and conquer?

If your tribes definition of success; is not to be the slaves of fuck honour white men; then you'd be best picking a team of Pashtun Pakistanis; to avoid being enslaved by fuck honour kaffirs pretending to be Aryans. I don't think they give a fuck about 'psychological safety'; but they do give a fuck about their particular tribal definitions of honour. – Dmitry Orlov: [Five Stages of Collapse](#).

I imagine any rational thinking individual who is a corporate member of any military industrial complex related corporation; would far prefer small sustained profits from cooperating with Pentagon and/or Kremlin officials to provide military support for nations to implement Ecology of Peace orderly and humane depopulation and deindustrialization; to enable them to focus on transitioning their employees and corporations to an EoP [low tech sustainable economy](#); than billions of profits for a few years; that go up in smoke; when the entire world economy very violently collapses; and they find out that American cities and suburbs are no different than formerly nigger and spick only inner city ghetto's; where mothers, sisters, daughters and babies are gangraped for profits for crack. Then it will be too late for individuals who called themselves 'white men rulers of planet earth' to speak about 'justice' for anyone that looks like them; let alone everyone.

If you prefer to play ego Mindfuck games with Gen Bortnikov and/or Adm Rogers; that's fine.

Perhaps they have time to engage you; or the inclination to find one of their psychotronics drone operators who hasn't been fucked by his tits and ass slut wife or girlfriend that morning; and is in the mood for ego Mindfuck games; to play ego Mindfuck fuck fuck games with you. I don't play ego Mindfuck games with anyone: FSB General or homeless person. I tell them my subjective and objective truth; the whole truth; and nothing but the goddamn truth; and I do not consciously attempt to mislead or deceive anyone; friend or foe; [magistrate](#); or ICC Judge [\[PDF\]](#). Ever!

If or when my subjective truths are proven to be inaccurate; I have absolutely no problem amending such subjective truth and/or apologizing; verbally and/or in writing.

Since the dumb fuck tits and ass slut has probably spent her entire 'organizational psychologist' life being the tits and ass slut 'brood sow propagandist' for 'America First' Big Pharma; its doubtful if she has had one fucking original idea, thought or sincere conversation in her life. If that's her existential preference; by all means; that's okay; she is hardly alone [PDF].

Any fucking imbecile who considers a study produced by corporate google to be some kind of objective truth evaluation of human nature; has got to be dumber than dumbfuck.

Why doesn't the lady test her 'psych safety' and 'success' values; by getting herself sentenced to a Mandelapopia or some other Heart of Darkness African dormitory prison; where she is the only lily white; amongst 40 African predators; and ask them what they think of her psych safety and success values. I doubt she will like their answers: Yes dumbfuck tits and ass progressive liberal; you want some profits; we can use you as our white meat tits and ass slut; and get the entire dormitory to gangrape fist fuck you for a few pennies; till you can't walk; and we can split the profits. How do you like our African predator psych safety success-profits response?

What goddamn part of -- 'when you are; or pretend to be the worlds 'America First' super power; and you do sweet goddamn fuck all for decades - presumably cause your entire culture is focused on nothing but corporate cocksucking of Hollywood like tits and ass sluts - about root cause problem solving and establishing a system of justice for all; your whacking a mole for corporate profiteering kaffirs pretending to be Aryan oligarchs; inaction leads to a fucking lot of resentment; where millions; perhaps billions of people around the planet; watching fuck honour American corporate profiteering whores terrorized into jumping out of the windows of World Trade Center skyscrapers; ranks amongst probably one of the happiest moments of their miserable lives -- Stan McChrystal 'root cause problem solving vs wacking a mole'; does Ms McChrystal Group Organizational psychologist not understand?

If my aforementioned working hypothesis regarding the possibility of rational individuals working for the military industrial complex corporations; being – like US Army Special Forces Michael Martin [PDF] or Hiram Stonebaker – cognitively [green platoon common sense](#) capable of the preference for making procreation, consumption and profit sacrifices to honourably cooperate with Pentagon, Kremlin, NATO and People's Liberation Army of China; to [implement an Ecology of Peace](#) international law social contract; that shall restrict all the worlds citizens, from all races and religions; to breeding and consuming below ecological carrying capacity limits; to enable orderly and humane deindustrialization and depopulation to a future EoP [low tech sustainable economy](#); are incorrect; I have absolutely no problem amending such subjective truth and/or apologizing; verbally and/or in writing to General McChrystal; McChrystal Group and/or Ms. Mendelowitz.

Re: *Hiram Stonebaker*:

"In this country we build obsolescence into our products. Our national economy is based on waste. People buy because things look good and are packaged attractively. Take toilet paper, for example. We are starting to manufacture it in colour. Our test market hops prove conclusively that pale green sells best in St. Louis while pink is big in Boston. We have editors to snag the public by verbal gymnastics; brown isn't brown, its tawny brown. We subtly key in sexually stimulating music to back up radio commercials. We know that men like blue-coloured after shave lotion. Sanitary napkins will soon be packaged in boxes of various shapes with striped and polka dot wrappings. So who cares how the motor runs as long as the upholstery has eye appeal and the exterior is junked up with enough chrome?" - Clint Loveless, Whitcomb Associates Public Relations

EoP Summaries:

Here follows my EoP summary to Dmitry Orlov; from Club Orlov.

===== Excerpt: Dmitry Orlov: EoP Summary & Sixth Stage of Collapse =====

I hadn't read your [Sixth Stage of Collapse](#) before today; and its way more powerful than Five Stages. Totally agree. I hope you don't mind that I reposted it at: [In Gods Name](#); updating Five Stages re-posted in 2008.

I recently shared that Five; now Six Stages of Collapse link:

- [EoP Axis](#) Negotiations: US v A Bundy et al [\[PDF\]](#): 26 April 2016 8:54 PM: *USA v A Bundy; Atlantic Ed & Journ: Re: Stan McChrystal 'root cause problem solving vs wacking a mole'; and WiP Case No. 16-MJ-00006: USA v A Bundy et al.*

You may wish to consider *EoP Axis Military Necessity Evacuation* blueprint ideas; with regard to your *Sixth Stage of Collapse* statement:

“This tragic [— **environmental collapse** — at the end of which we are left without a home, having rendered Earth (our home planet) uninhabitable] outcome may not be unavoidable. And if it is not unavoidable, then that's about the only problem left that's worth solving. The solution can be almost arbitrarily expensive in both life and treasure. I would humbly suggest that it's worth all the money in the world, plus a few billion lives, because if a solution isn't found, then that treasure and those lives are forfeit anyway. A solution for avoiding the sixth stage must be found, but I don't know what that solution would look like.”

[EoP Axis Military Necessity Evacuation](#) is the military necessity mutual coercion last resort option of the Ecology of Peace NWO social contract options. It provides a legal blueprint for how to legally, militarily, politically and economically implement an Ecology of Peace international law social contract; to enable immediate orderly and humane deindustrialization and massive depopulation measures.

The benefits of immediate implementation of humane and orderly depopulation measures are documented in among others: EoP Axis: Cop 21 [\[PDF: EoP Axis Humane De-Industrialization and Depopulation Options: 22 Jan 2016\]](#). Furthermore Canadian Attorney Generals [\[PDF: 09 March 2016\]](#); Hong Kong Prosecutor [\[PDF: 09 March 2016\]](#); ICC Judges [\[PDF: 29 Dec 2015\]](#); have been notified of the possibility that EoP Axis Military Necessity Evacuation measures shall be implemented.

----- Excerpt: EoP Axis: Cop 21 [\[PDF: 22 Jan 2016\]](#) -----

If humane deindustrialization and depopulation is implemented internationally as per ***EoP Cop21 Simple Root Cause Problem Solving Recommendation*** [\[PDF\]](#) submitted to UNFCCC & Cop 21; and/or [EoP complaint to ICC](#); it would have greater positive effects on re-forestation, biodiversity and climate change than the extremely violent depopulation

implemented by Genghis Khan the Green; which only occurred in Eurasia; but resulted in massive reforestation and the plummeting of carbon levels.

Excerpts from: [Coupled climate-carbon simulations indicate minor global effects of wars and epidemics on atmospheric CO2 between AD 800 and 1850](#) study by Julia Pongratz; article: [Genghis Khan the GREEN: Invader killed so many people that carbon levels plummeted](#); Carnegie: [War, Plague No Match for Deforestation in Driving CO2 Buildup](#).

Genghis Khan has been branded the greenest invader in history - after his murderous conquests killed so many people that huge swathes of cultivated land returned to forest. The Mongol leader, who established a vast empire between the 13th and 14th centuries, helped remove nearly 700 million tons of carbon from the atmosphere, claims a new study. The deaths of 40 million people meant that large areas of cultivated land grew thick once again with trees, which absorb carbon dioxide from the atmosphere. And, although his methods may be difficult for environmentalists to accept, ecologists believe it may be the first ever case of successful manmade global cooling.

Genghis Khan and his Mongol hordes had an impact on the global carbon cycle as big as today's annual demand for gasoline. The Black Death, on the other hand, came and went too quickly for it to cause much of a blip in the global carbon budget. Dwarfing both of these events, however, has been the historical trend towards increasing deforestation, which over centuries has released vast amounts of carbon dioxide into the atmosphere, as crop and pasture lands expanded to feed growing human populations. Even Genghis Kahn couldn't stop it for long.

"It's a common misconception that the human impact on climate began with the large-scale burning of coal and oil in the industrial era," says Julia Pongratz of the Carnegie Institution's Department of Global Ecology, lead author of a new study on the impact of historical events on global climate published in the January 20, 2011, online issue of The Holocene. "Actually, humans started to influence the environment thousands of years ago by changing the vegetation cover of the Earth's landscapes when we cleared forests for agriculture."

Clearing forests releases carbon dioxide into the atmosphere when the trees and other vegetation are burned or when they decay. The rise in atmospheric carbon dioxide resulting from deforestation is recognizable in ice cores from Greenland and Antarctica before the fossil-fuel era.

But human history has had its ups and downs. During high-mortality events, such as wars and plagues, large areas of croplands and pastures have been abandoned and forests have re-grown, absorbing carbon dioxide from the atmosphere.

Pongratz decided to see how much effect these events could have had on the overall trend of rising carbon dioxide levels. Working with colleagues at the Max Planck Institute for Meteorology in Germany and with global ecologist Ken Caldeira at Carnegie, she compiled a detailed reconstruction of global land cover over the time period from 800 AD to present and used a global climate-carbon cycle model to track the impact of land use changes on global climate. Pongratz was particularly interested in four major events in which large regions were depopulated: the Mongol invasions in Asia (1200-1380), the Black Death in Europe (1347-1400), the conquest of the Americas (1519-1700), and the Fall of the Ming Dynasty in China (1600-1650).

"We found that during the short events such as the Black Death and the Ming Dynasty collapse, the forest re-growth wasn't enough to overcome the emissions from decaying material in the soil," says Pongratz. "But during the longer-lasting ones like the Mongol invasion and the conquest of

the Americas there was enough time for the forests to re-grow and absorb significant amounts of carbon.”

The global impact of forest re-growth in even the long-lasting events was diminished by the continued clearing of forests elsewhere in the world. But in the case of the Mongol invasions, which had the biggest impact of the four events studied, re-growth on depopulated lands stockpiled nearly 700 million tons of carbon absorbed from the atmosphere. This is equivalent to the world’s total annual demand for gasoline today.

Pongratz points out the relevance of the study to current climate issues. “Today about a quarter of the net primary production on the Earth’s land surface is used by humans in some way, mostly through agriculture,” she says. “So there is a large potential for our land-use choices to alter the global carbon cycle. In the past we have had a substantial impact on global climate and the carbon cycle, but it was all unintentional. Based on the knowledge we have gained from the past, we are now in a position to make land-use decisions that will diminish our impact on climate and the carbon cycle. We cannot ignore the knowledge we have gained.”

As noted in Request for Assistance of Counsel to renowned Philippine’s Environmentalist lawyer: Tony Oposa [PDF]; if EoP Applicants cannot find any civilian attorneys to support their EoP ICC complaint; EoP Axis authorities can choose to implement the [military necessity mutual coercion last resort option](#) of the [Ecology of Peace NWO social contract options](#).

If EoP Axis authorities – Leaders of Russia, China, USA & NATO – and/or IL Coercion authorities choose to implement the [EoP Axis Military Necessity Evacuation](#) – as detailed in *26 September 2015 Military Necessity Evacuation Lotto Pool Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City* [PDF]; Proof of Service [PDF] – the first two countries on the EoP Axis Military Necessity Evacuation lotto are: Phillipines [PDF] and India [PDF].

Lotto Military Necessity Evacuation implementation shall result in half of India and Phillipines – or subsequent lotto draw nations – scarcity combatants and breeding/consumption war extremist’s – whom Masonic War is Peace legislators, lawyers and judges formerly provided with [Breeding/Consumption Innocence for sale Indulgences](#) – being psychotronically humanely killed en masse; unless their city or the citizen has signed EoP Axis Oaths and provided such oaths to EoP Axis authorities as documented at [EoP Supporters](#).

An EoP Military Necessity Evacuation:

- (a) Scarcity combatant is any citizen who is a member of the following professions: (i) Law: Judges, Prosecutors & Lawyers; (ii) Mental Health: Psychologists & Psychiatrists; (iii) Media: Print, TV or Radio: Editors, Producers & Journalists; (iv) Religious & Non Profit: Officials and Employees of any religious worship or charity organization with State non-profit status.
- (b) Breeding / consumption war extremist is any adult individual over the age of 18 who has co-procreated more than 3 children who survived beyond the age of 5; and/or who possesses capital assets amounting to more than US \$ 2.55 million.

===== End Excerpt: Dmitry Orlov: EoP Summary & Sixth Stage of Collapse =====

Once the aforementioned breeding / consumption war extremists have either chosen to amend their ways by filing an EoP Axis Oath; or been eliminated from the genepool; the breeding / consumption war extremist definition shall be lowered to the 'scarcity combatant' definition as noted in ICC complaint detailed in correspondence to ICC Judges [[PDF](#): 29 Dec 2015].

Ecology of Peace Culture Current Working Hypothesis Conclusion:

It is my current working hypothesis conclusion that a significant number of individuals involved – whether directly as a victim, victims family or community member, accused or accused family or community member, state investigator, prosecutor or corporate media reporter or editor; or social media poster or commenter – in the aforementioned events – were being [psychotronically manipulated](#), probably without their knowledge or consent.

Put differently: In any possible psychotronic handler manipulated event: There are at least three layers of meaning to any individuals actions: their human-drone's conscious actions based upon their conscious personal values; the human-drone's subconscious actions based upon their subconscious cultural values; the human-drones unconscious actions based upon their psychotronic handlers conscious and unconscious personal and cultural values. Put differently: the human-drone has their conscious reasons for what they were doing, where they were doing, how, with whom and why. They have their subconscious cultural reasons for what they were doing, where they were doing it; how, with whom and why. Their drone handler has his/her reasons for why they manipulated that particular human-drone to engage in that particular activity; or make that particular statement; at that place, with whomever it was done, and why. An Intelligence Agency handler psychotronically can manipulate any individual on earth; whether they be a president, pope or unemployed homeless person as a 'human drone war pawn, to send Masonic WiP secret society topology coded cryptic messages.

If accurate:

EoP Axis Military Intelligence Agencies from Russia, China, NATO members and America; acting on their own initiative or on the orders of their Political National Leader; with regard to aforementioned events; are engaged in 'cryptic negotiation' communications and messages regarding [Ecology of Peace v Masonic War is Peace culture war negotiations and court proceedings](#).

Ecology of Peace Applicants are exploring military, legal and/or political [options for the implementation of an Ecology of Peace international law social contract](#); that would require all the worlds citizens from all the worlds citizens from all races, classes and religions to procreate and consume below [ecological carrying capacity limits](#); or have their genes removed from the planetary genepool.

Current options for the implementation of an Ecology of Peace international law social contract are and have been: [EoP Referendum](#); [Amendment of UN Prisoner of War Treaty submission to Swiss Federal Council](#); International Criminal Court Complaint: [EoP PoW's –v– Nobel Committee & Peace Laureates et al](#); and if those don't work to nonviolently implement an EoP international law social contract; the last resort military necessity coercion option is: [Ecology of Peace Axis Military Necessity ICC 26 lotto Evacuation](#).

Military Cryptic Code and/or Twilight Language:

Cryptic communications occur everywhere from Joshua and Rahab's cryptic red cord/rope hanging from her window enabling the capture of Jericho in the Bible to Masonic War is Peace 'rule of law' Constitutional Court Judgements reliance on hidden – to the average layman – stare decisis rulings.

Examples of 'impossible coincidence' Global War on Terror Cryptic Messages:

Peter Power and London Bombings:

On the morning of the 7 July 2005 London bombings: Peter Power, a former Anti-Terrorist Branch Metropolitan police officer and "crisis management specialist" informed a television news report that he was involved in a fictional drill for a client – later revealed as publisher and backer of the UK's largest arms fair: Reed Elsevier – “based on simultaneous bombs going off precisely at the railway stations where it happened this morning”. In an interview he gave to the Manchester Evening News he spoke of "an exercise involving mock broadcasts when it happened for real".

According to [7/7 Ripple Effect](#) the probability of 7/7/2005 drill and attack coinciding without being planned to coincide in a 10 year period, is one chance in 3,715,592,613,265,750,000,000,000,000,000,000,000,000.

John Nash's Theories of Beauty, Problem Solving Cooperation and Messages from God:

John Nash was a mathematician; famous for his [Nash Equilibrium theory](#); for which he won a Nobel Prize for Economics. John Nash is the subject of the movie: [A Beautiful Mind](#); and the documentary: [A Brilliant Madness](#).

Beauty & Problem Solving Cooperation Theories:

In *A Beautiful Mind* and *A Brilliant Madness*; the Nash Equilibrium theory is described as a mathematical principle of cooperation. The principle of cooperation to implement an Ecology of Peace international law as opposed to competition over resources is based thereon. Put simply: That in any conflict; those who cooperate to share resources and resolve the root causes of the conflict; would have a better chance of success and winning the fight; than those who say 'the strongest' shall win all the resources; and have the right to enslave the weakest.

They are sitting in a bar and in walks a beautiful blond Aryan woman; and they all start getting ready to fight each other to take her on a date; and John Nash laughs and tells them: Why fight about the few women you consider to be physically beautiful in appearance; instead of redefining beauty and cooperating to help all women to become beautiful in character. If you fight for a few physically beautiful women; only a few men will win a beautiful woman; if you redefine beauty in terms of character; you can then cooperate to help all women to grow beautiful characters; then every man in the process helps his own character; and goes home with a beautiful woman.

Similarly if humans cooperate to implement an Ecology of Peace international law social contract; then all the energy that is currently wasted by individuals, religions and races to fight over resources will no longer need to be wasted on resources; and humans will have more time and resources to investigate ideas such as whether God does or does not exist; or any other issue

of concern they are interested in investigating to seek the truth about reality; but currently cannot do so; because they are just joining one or other religion for ethnic or religious tribal resource war purposes; in their Planet of the Apes fight for survival.

Imagine if Adolf Hitler and Joseph Stalin had invited Mao Tse-tun, Franklin Delano Roosevelt and Neville Chamberlain to meet and discuss options for pooling their military resources to pressure the international legal community to implement an Ecology of Peace international law social contract; for the benefit of all individuals from all races, classes and religions interested in Ecology of Peace responsible freedom?

Imagine if Nelson Mandela and the ANC had invited Hendrik Verwoerd and the National Party to meet and discuss options for leading the world towards an Ecology of Peace international law social contract; by working together to implement an Ecology of Peace social contract for an ethical responsible freedom South Africa?

Messages from God Theories

In the documentary [A Brilliant Madness: A Mathematical Genius Descent into Madness](#); John Nash talks about how he attempted to mathematically calculate the probability of the existence of God; by attempting to determine the 'normal' probability for any coincidence event to occur; and if or where any highly improbable coincidence event occurred; which was not man-made; considering whether highly improbable coincidence events could be messages from God.

Erhan Cinlar: "From time to time you would see in your office, you know under the door a huge number of sheets that has been worked out the night before computing the probabilities of certain coincidences. Very detailed computations. He was attempting to prove the existence of God."

John Nash: "I felt I might get a divine revelation that seeing a certain number of [above normal] coincidences; could be interpreted as a message from Heaven."

In my personal opinion: in an age where military agencies have access to technology that includes mind reading and manipulating the thoughts, behaviors and actions of individuals, animals, the weather; etc; if or where any individual perceives any highly improbable coincidence event to have occurred; it would have to be verified that such improbable coincidence was not the result of (a) military agencies using military technology to manipulate events; (ii) extraterrestrial beings using extraterrestrial technology to manipulate events; before (c) any consideration could be given to whether it could be a message from God.

Working Hypothesis as to why people use cryptic code:

People use cryptic code language for many reasons; such as: Military leaders, politicians, corporate and mafia leaders use cryptic communication to (i) restrict their military, political policy, corporate business secrets, or mafia illegal activities information from perceived enemies and/or law enforcement; (b) manipulate their public relations image; to hide ugly inconvenient truths they do not want known about their policies, beliefs and/or actions; from the general public, their family; or their own followers.

I don't use cryptic code language cause (i) I don't have any secrets I need to keep from anyone else; (ii) I am not involved in any illegal activities; (iii) I don't have a public relations image that

hides ugly inconvenient truths; from the general public and I don't have followers. I prefer buck stops here really simple and crystal clear communication; no matter how offensive it may be.

If or when I have observed what I have interpreted as a working hypothesis conclusion possibility to be possible cryptic communications; I publicly document my Ecology of Peace interpretation of the possible cryptic message; for others to consider and provide me with their feedback; as to whether my interpretations of their communications are accurate or not.

Cryptic communications can be 100% precise, leaving absolutely no room for misinterpretation; like the orders sent to a Nuclear Submarine Captain in the movie [Crimson Tide](#); or ambiguous and imprecise; leaving massive room for wildly differing interpretations; like all organized religions texts; whether Islam, Christianity, Buddhism, Judaism, Satanism, etc.

The key to the cryptic code can be publicly available, where it can be hidden in a public place; like a library; or a law degree; or simply require an individuals interest to search and find it; or it can be under lock and key – like a nuclear submarine safe -- only available to a select few.

If you are in the desert and there is only one oasis well with water; which is locked. Then the person who has the key to that well of water is a very powerful person. That person can either decide: (i) whether to ration the water equally based upon the well's carrying capacity limits; or whether to ration the water based upon whom is the most powerful. If however some people in the village decide they want to be the political leader of the village and have the keys to the well; then they can lie to the citizens and say 'elect me; and I promise you can breed and consume like cockroaches on viagra; and there will always be enough free water for everyone'. When there is not enough water; and the people start fighting over the water; then the same politician can say 'the black people stole the water' or the 'white people are racists and wont share the water' and distract the emotionally greedy citizens; instead of saying to the citizens: "I was the liar; I promised you, you could breed and consume like a cockroach on Viagra; because I wanted you to vote for me; so that I could stick my pig nose in the government corruption trough'. Greedy and corrupt citizens will vote for the politician who has promised them the most 'free water'; that does not require them to be responsible with regard to their consumption of the water. Honest citizens will take a look in the mirror and say 'who did I vote for'? Someone who said: We have a finite amount of water in our well; and must share it and conserve it; and have to breed and consume below the well's carrying capacity or we are going to go thirsty and die of famine from lack of water for crops. Some Generals will [try to educate their citizens](#) about how difficult it can be to simply try to provide ignorant people; who demand to breed and consume like cockroaches on Viagra; with a well to get reliable water.

Masonic legal proceedings involve reliance and practice of legal jargon cryptology: As Professor David Skover, Professor of Law at Seattle University says: "All law is interpretation. A lawyer uses words, which are inherently imprecise, and when a law is applied to the fact of a new situation what lawyers do is interpret the code words to deem them appropriately or inappropriately applied to the case at hand. To view the law means to understand interpretation. Law has more to do with critical literacy studies than it probably has to do with anything else."

Under Masonic War is Peace law: two judges adjudicating the same case of 'unlawful' actions before them; can of their own volition or as a result of arguments made before them by prosecutors and lawyers – involved in Accusatory proceeding -- follow two different Masonic Matrix maze paths of 'stare decisis' rulings; where one Judge can end up at a 'guilty' conclusion

and the other at an 'innocent' conclusion. All Judges, prosecutors and lawyers either consciously know this; or if intellectually honest even admit this: its sort of an open secret.

Ecology of Peace law is different: If or when an Ecology of Peace international law social contract is implemented; any village idiot will be able to inform police authorities with a reasonable degree of probable cause certainty that so and so is overbreeding and/or overconsuming; and/or not engaging in fully informed consenting agreements with so and so. Investigating, prosecuting, convicting and sentencing shall not involve massive millions of taxpayer funds.

Twilight language:

Twilight language explores hidden meanings and synchronystic 'coincidence' connections via onomatology: study of persons names; and toponymy: study of geographic place names. It is generally used by individuals involved in occult and/or illegal activities; by individuals and organizations who for some justified or unjustified reason want to 'send a plausible deniable message'.

Some people are either unaware of it; or others say that it does not exist; and is not being practiced. In order to prove to people who do not know what twilight language is; or how it is spoken; you have to use twilight language to communicate to them; and then find an honest interpreter who will accurately interpret your message; exactly as you meant it; not as they want to twist it; for their benefit.

This means that you must find someone who will listen; document her interpretation of the message; as an interpretation not a fact; and only if it is ever confirmed as an accurate interpretation; shall the interpretation be stated as a 'fact'.

If the nail you are hammering is to abolish the Masonic War is Peace social contract and replace it with an Ecology of Peace social contract; then that nail is simultaneously addressing a multitude of ecological overshoot problems: whether crime and violence, unemployment and poverty, food shortages, inflation, political instability, loss of political freedoms, conformist political correctness, vanishing species, garbage and pollution, urban sprawl, traffic jams, toxic waste, resource depletion, etc.

Put simply the nail is in the bulls eye target zone, and each hammer strike, sends problem solving solution ripples to each of all of these problems; whereas if you find a nail and stick it in only one of these problem areas; each hammer strike is pointless; because in the absence of addressing the root cause of the problem: Masonic War is Peace 'right to breed/consume with total disregard for ecological carrying capacity limits' social contract; the particular problem you are focussed on is only going to get worse; as the tap of overpopulation / overconsumption-ecological overshoot resource scarcity grows and grows and grows.

“The first thing you need to know about CERN is that it’s a misnomer. The N stands for Nuclear which sounded cool in 1954 but they’ve actually worked on sub-nuclear stuff ever since then. ... CERN—and specifically the Large Hadron Collider—is an attempt to simultaneously create the hottest place in the Universe and the near-coldest place in the Universe, on Earth, just outside Geneva, and millimetres away from each other. (The former, the conditions of the Big Bang; the latter, the 1.5° Kelvin of deep vacuum space and superconducting magnets cooled with liquid helium. The core beam tubes of the LHC are colder and emptier than most of space.) Here’s another thing. Magnets are a big deal at CERN, because you need them to steer the beams of very, very fast particles around in a big circle. And the French word for magnets is “aimants”, which means “loving”. The LHC is a massive loving machine, and I love the Académie française. – [Book Two](#); by James Bridle.

Keystone Predators maintain Ecological Equilibrium:

A keystone species -- like the Plateau Pika in China or the Black Tailed Prairie Dog in Arizona -- has a disproportionate effect on its environment relative to its abundance, affecting many other organisms in an ecosystem, helping to determine the types and numbers of various others species in a community. Such an organism plays a role in its ecosystem that is analogous to the role of a keystone in an arch. While the keystone feels the least pressure of any of the stones in an arch, the arch still collapses without it. Ecosystems experience a dramatic loss of biodiversity & equilibrium if the keystone species is removed. Keystone Predator-prey systems enhance ecological equilibrium and balance.

A starfish is the top predator upon a community of invertebrates inhabiting tidally inundated rock faces in the Pacific Northwest. The rest of the community included mollusks, barnacles and other invertebrates, for a total of 12 species (not counting microscopic taxa). When the starfish was removed the species were reduced to 11. Soon, an acorn barnacle and a mussel began to occupy virtually all available space, out competing other species. Species diversity dropped from more than 12 species to essentially 2. The starfish was a keystone predator, keeping the strongest competitors in check. Although it was a predator, it helped to maintain a greater number of species in the community. Its beneficial impact on species that were weak competitors is an example of an indirect effect.

CommonSism Jurisprudence, restricting all human cultures, religions, races, etc to procreating and consuming below regional, national and international carrying capacity limits; if implemented function as a form of 'legal /jurisprudence starfish' Keystone predation, by eliminating the breeding and consuming predator cheaters, to (a) keep the system stable with regard to human population vis a vis other species and resources; and (b) restrict any one religion, race, or culture from overpredation; by outcompeting all other species (due to greater access to capital (consumption war predatory benefits) or human cannon fodder (breeding war predatory benefits).

EoP Definition for Crimes of Aggression Acts of War roots of overpopulation and overconsumption causes of Terrorism:

Excerpt: 29 Dec 2015: ICC Judges [\[PDF\]](#):

---- Excerpt ----

On behalf of the EoP Applicants I have been preparing documentation for an ICC private prosecution in terms of Rendulic Rule Military Necessity doctrine; CA, UK, US & RSA

Common Law Private Prosecution doctrine; Rome Statute: Art.5, 6, 7, 8 & 15; ICC Code of Judicial Ethics: Art 4, 5(1), 7 & 11. Charges: Crimes of Aggression Acts of War.

The Ecology of Peace culture's definition of 'crimes of aggression acts of war' is as follows: "Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any – cultural, religious, common, statutory, constitutional, or international – 'scarcity combatant' social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the 'crime of aggression act of war'."

Carrying Capacity Sustainability: I=PAT Equation:

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarized by what is known as the Ehrlich or IPAT equation, $I=PAT$. I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor.

Consumption Footprint: Consumption footprint calculators are based upon [Global Footprint Application Standards](#), and calculate an individual's consumption footprint based upon various questions about their consumption lifestyle's; and provide a final consumption footprint in global hectares which is the individual's 'consumption footprint'; i.e. the amount of global productive land required for the production of products the individual consumes. Consumption Footprint calculators can be found at among others: [Global Footprint Network](#); [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#).

Global Footprint concepts were developed by among others: Dr. Mathis Wackernagel; Dr. William Rees; Dr. Herman Daly and the Global Footprint Network Standards Committee is one of two committees overseeing scientific review procedures and standards for Footprint calculations.

Procreation Factor: According to the research of [Paul Murtaugh](#): A parent increases their consumption footprint by a factor of 20 for every child procreated.

Carrying Capacity aka Biocapacity Limits: "The maximum number of individuals that can be supported sustainably by a given environment is known as its 'carrying capacity'. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each.

Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else.

For example:

Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million humans: 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

Waldorf Hotel Basement: In 1954, Israeli statesman and archaeologist Yigael Yadin met secretly with the Syriac Orthodox Archbishop Mar Samuel in the basement of the Waldorf-Astoria Hotel to negotiate the purchase of four Dead Sea Scrolls for Israel. The scrolls were kept in a vault at the Waldorf-Astoria branch of New York's Chemical Bank. At the request of the Israeli government, respected biblical scholar Dr. Harry Orlinsky examined the scrolls and verified their authenticity; Yadin paid \$250,000 for all four.

“And when the cold war was over, he proposed beating swords into plowshares, arguing that half of the billions for the Pentagon should go to education, economic competitiveness and programs for the poor. This transformation began on April 27, 1973, 12 days before Mr. Colby learned that President Richard M. Nixon, then deeply enmeshed in the Watergate scandal, was about to nominate him as Director of Central Intelligence. That day, the Federal judge at the trial of Daniel Ellsberg, a former Defense Department official charged with espionage after the Pentagon Papers, a secret history of the Vietnam War, were provided to The New York Times, disclosed that the office of Mr. Ellsberg's psychiatrist had been burglarized by White House operatives -- with technical assistance from the C.I.A.”

-- [New York Times](#).

“Michael Collins Piper in his book “Final Judgement” wrote (William Colby – The Education Forum): The August 20, 1996 issue of The Sun, a supermarket tabloid, carried an exciting ‘newsflash’ which announced, “Dead CIA Chief Was Set To Finally Blow Lid on JFK Assassination”. The tabloid announced that former CIA director William Colby had been planning to blow the whistle on the truth about the assassination...The fact is, that while serving as CIA director, William Colby was considered hostile to Israel’s interests, so much so that it was Colby who fired the Mossad’s longtime agent-in-place at the CIA, James Jesus Angleton, who has been documented in ‘Final Judgement’ as the key CIA player in the JFK assassination conspiracy.”

The Air France Flight 4590 Concord crash into a field next to a hotel; after taking off from Paris airport; on 25 July 2000; was the result of the tyre running over an L-shaped titanium alloy strip – that had dislodged from a Continental Airlines DC-10 departing for Newark, New Jersey, during takeoff from the same runway; when a rivet popped – that punctured the tyre, a chunk of tyre debris struck a wing that sent out a pressure shockwave that ruptured a fuel tank and leaking fuel ignited. The fire caused damage to the port wing, which began to disintegrate—melted by the extremely high temperatures. Engine one and two lost power. Engine one surged again, but this time failed to recover. Due to the asymmetric thrust, the starboard wing lifted, banking the aircraft to over 100 degrees. The crew reduced the power on engines three and four in an attempt to level the aircraft, but with falling airspeed they lost control and the aircraft stalled, crashing into the field next to the Hôtelissimo Les Relais Bleus Hotel in the town of Gonesse.

A Revolutionary in Military Ethics is the premise for the EoP v WiP NWO negotiations [\[PDF\]](#) question: whom should the military kill; which is excerpted in: [stanmccrystal-spygame-](#)

[buffalobill-nato-bridge-garywebb](#); in UJMC-SF44: [Aex ELF Potato-Island Love Story: New EoP Gotit Rules or No Los Pepes Rules](#).

Our dilemma is that of defining just and unjust actions within our wars and conflicts. It is time to reexamine habits that have come to pass for ethics and ask the sort of questions that are as controversial as they are uncomfortable to the man or woman of conscience ... We must reexamine our concepts of the ethical and the legal. .. The whispered warning that we do not condone "assassinations" because we do not want our own leader assassinated is a counsel of unspeakable cowardice. First, if leaders will not risk the fate they ask of their privates, they are not fit to lead their people. Second, if foreign criminals, official or private, knew that retribution would be generally swift and always sure, attacks on US leaders -- or US citizens overall -- would likely decrease wonderfully. And such a policy would return us once again to an objectively moral path.

These issues demand serious debate. Traditionalists who decry even the possibility of attacking these sources of human misery in such a manner generally do so from campuses or comfortable offices. They are out of contact with our citizenry and its needs, as they are phenomenally out of contact with the sheer violence of this world. They will immediately push the issue to absurd extremes, crying out that such a doctrine would amount to giving our military, .. a license to kill. But the purpose of a military is to kill, and if you cannot stomach that, you should not have a military.

The only operative question is whom the military should kill.

»» Col Ralph Peters: [Revolution in Military Ethics](#)

I don't know what is on the top of other people's military necessity lists. Presumably the implementation of an Ecology of Peace international law social contract is on the top of many Generals and Admirals military necessity lists [PDF: 23 Jan 2016]. If they don't have enough Generals and Admirals to implement [EoP Axis Military Necessity Coercion Evacuation](#); those who believe in God/Allah/Jahweh/Buddha/Satan better be doing some 'God Help Us All'; as they give the planet's Prosecutors, non-cooperating military elite, lily white guilt liberals – who don't understand the passive aggressive obstruction to the honourable winning hearts and minds implementation of an Ecology of Peace cultural schmuck reality – some [rectal-hummus hydration](#) interrogation.

'God Help Us All' considerations for the God/Allah/Jahweh/Buddha/Satan believers:

To the Pope's, Cardinals, Pastors, Friars, Priests, Deacons, Ayatollahs' Imam's, Witches interpreters of God / Allah / Buddha's / Satan's etc words:

- When do you intend to ask your God / Allah / Buddha / Satan boss; whether he knows that the earth he made is flat or not?
- If your God / Allah / Buddha / Satan boss knows that the earth he made is not flat; but round and with finite resources:
 - when does that God / Allah / Buddha / Satan boss of yours intend to inform you his prophet spokesperson?
- If your God / Allah / Buddha / Satan Boss knows that the earth he made is not flat; but round and with finite resources; and your God / Allah / Buddha / Satan is a God / Allah / Buddha / Satan is a God of peace:
 - When does your God / Allah / Buddha / Satan boss intend to order you to order his children of peace flock; to implement an Ecology of Peace international law social contract?

- If alternatively your God / Allah / Buddha / Satan Boss is a God / Allah / Buddha / Satan of War; when is your God / Allah / Buddha / Satan Boss going to order you his Interpreter prophets to order you to register your religion as a Religion of War with the relevant State authorities?

Since I don't believe in God; I don't ask God if the earth he made is flat or not; whether resources are finite or not.

Since it is quite obvious to me; that if people sincerely want to live in peace; they should cooperate to implement an Ecology of Peace international law social contract; I do what I can to educate (a) people who prefer avoiding social conflict or resource war conflict about how they can do so: cooperate to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; and engage in fully informed consenting agreements; (ii) people who occasionally or frequently prefer to engage in physical violent conflict; that if they support the implementation of an Ecology of Peace international law social contract; based upon breeding and consuming below ecological carrying capacity limits and fully informed consenting agreements; they will be able to engage in fully informed consenting fight club like fights in private venues; or whatever perverted violence they prefer to engage in; with others who have those preferences; and they won't have to worry about ending up in jail or in court; for their consensual violent activities.

If or where I perceive the possibility that some Generals or Admirals are sincerely concerned about the [implementation](#) of an [Ecology of Peace](#) international law social contract; to enable humane and orderly depopulation and deindustrialization to a new Ecology of Peace based economy; I do what I can to help them; as long as helping them does not conflict with my commitment to (a) honesty to all; (b) getting what I want: spending time physically with Timothy before we depart this planet.

Cultural Schmuck reality:

“I come from the school of 'walk softly and carry a big stick.’” – [Esquire: William Fox Fallon: The Man Between War and Peace.](#)

“He was a senior commander who went with his units from house to house, from bunker to bunker, from orange grove to orange grove; to explain what he meant. And three months later, Gaza was quiet. Terrorism was crushed with an iron fist, with a cruel hand. He cast fear into Gaza. They were afraid of him, really scared. He explained to me once in a very simple manner; that he went to put an end to terrorism in Gaza. He was head of Southern Command. His method was simple. Every Arab caught holding a weapon; was shot on the spot.” -- Eli Landau & Uri Avnery; [Israels Generals: Ariel Sharon.](#)

“In our neighbourhood strength is everything” – [Israel Video Network](#)

“[05BAGHDAD5038 US Embassy Cable to Washington DC] Summary: Fight Terror with Terror: Major General Thabit, who created and commands the Special Police Forces, is a Sunni officer who served time in prison for attempting to overthrow the Saddam Regime. ... They expressed the view that its necessary to fight terror with terror and it is critical that their forces be respected and feared as this is what was required in Iraqi society to command authority. ... “In the Middle East, anyone who proclaims non-stop that he wants peace, projects the image of someone who is afraid of war because he is weak, thereby awakening the militaristic adrenaline glands of his neighbors, who then resemble nothing so much as eagles and vultures hovering over a dying cow. And the opposite is just as true: anyone who radiates power, strength, threat and danger enjoys comparative tranquillity because the bullies leave him alone. This is the reason the Arabs hated and respected Ariel Sharon and Moshe Dayan – they were afraid of them. Sadat made peace with Israel because he could not defeat the Jewish state despite the surprise factor he had in opening the Yom Kippur War and his early success in crossing the Suez Canal. Hussein also made peace with Israel, hoping it would use its power to help him face the Baath party of Syria and Iraq. Arafat agreed to a hudabiyya peace - that is, a temporary "peace" for as long as the enemy is too strong to defeat – after the failure of the first intifada.... In the area called the Middle East only those who are truly powerful, threatening and determined to deter their enemies survive. ... This is the bitter reality in which we attempt to survive... I am just the messenger who is charged with explaining to my readers what not everyone understands about the culture in our neighbourhood. " - Dr. Mordechai Kedar; [Israel National News: Why the Arab World Long for Labour to Win.](#)

“Parallels between South Africa and the Middle East: How Weakness Breeds Contempt: In terms of psychological dynamics, I see important similarities between South Africa and the Middle East. *From The Counterlife*, a 1987 novel by Philip Roth: “We’ll drive through the village You’ll see how Arabs who want to can live in peace, side by side, only a couple of hundred yards away. They come up here and buy our eggs. [Our old] chickens ... , we sell to them for pennies. The army could move in here tomorrow, weed out the troublemakers, and the stone throwing would be over in five minutes. But they don’t. They even throw stones at the soldiers. And when the soldier does nothing, you know what the Arabs think? They think you are a shmuck – and *you are a shmuck*. Any place in the Middle East, you throw a stone at a soldier and ... [h]e shoots you. But suddenly they discover ... that you throw a stone at an Israeli soldier and he doesn’t shoot you. He doesn’t do anything. *And that’s when the trouble begins. Not because we are cruel, but because they have found out we are weak. They don’t respect niceness and they don’t respect weakness. What the Arab respects is power.*” And just so, blacks think whites are fools. ... Of *course* blacks will think you’re a shmuck – ‘and you *are* a shmuck’! Arabs in Israel live better than those in ‘Palestine’, economically and politically. Most know this, but because of Western propaganda, many ‘convince’ themselves otherwise. In South Africa, most blacks don’t want black rule; but Western propaganda will ‘convince’ them they do. In both cases it is a matter of mob hysteria, intimidation and liberal media influence.” – Gedaliah Braun: [Racism, Guilt, Self-Hatred and Self-Deceit: A Philosophers Hard-Headed Look at the Dark Continent.](#)

“Order demands violence. A rule not ultimately backed by the threat of violence is merely a suggestion. States rely on laws enforced by men ready to do violence against lawbreakers. [...] Without action, words are just words. Without violence, laws are just words. [...] Violence isn’t the only answer, but it is the final answer. One can make moral arguments and ethical arguments and appeals to reason, emotion, aesthetics, and compassion. People are certainly moved by these arguments, and when sufficiently persuaded –providing of course that they are not excessively inconvenienced — people often choose to moderate or change their behaviors. However, the willful submission of many inevitably creates a vulnerability waiting to be exploited by any one person who shrugs off social and ethical norms. [...] Violence is the final answer to the question, “Or else what?” [...] Ask the Cherokee, the Inca, the Romanovs, the Jews,

the Confederates, the barbarians and the Romans. They all know “Or else what.” – [Jack Donovan: Violence is Golden](#).

“Here they place Putin in context as part of the so-called Andropov levy, a generation of KGB officers recruited during the long (1967–82) chairmanship of Yury Andropov. According to Hill and Gaddy, Andropov saw himself as an enlightened, liberal secret policeman who emphasized the need to “work with people”—that is, to try persuade dissidents to change their minds and support the Soviet regime, but with obvious coercive threats looming in the background. They see Putin as adapting this approach to Russian politics today, trying to win through persuasion, but always ready to bring the full force of the state to bear on any opponent who does not see the wisdom of agreeing. Most notably, Putin used this method to bring the oligarchs to heel. Putin made it clear they would be allowed to make their fortunes but had to become apolitical, pay their taxes, and follow Putin’s policy line. He made it clear that their “property rights were ultimately dependent on the good will of the Kremlin,” with former oligarch Mikhail Khodorkhovskiy’s fate—a long jail term and seizure of his assets—serving as an example of what would happen to anyone who stepped out of line. It is the same method that Andropov used with dissidents, who knew that psychiatric hospitals and labor camps awaited anyone who failed to be persuaded by the KGB’s arguments.” - [CIA Review: The Man Without a Face: The Unlikely Rise of Vladimir Putin](#), by Masha Gessen and [Mr. Putin: Operative in the Kremlin](#), by Fiona Hill and Clifford Gaddy.

But "Market Garden" was by no means the summit of Montgomery's ambition. On September 10, in a stormy conference held aboard Eisenhower's private plane in the airport at Brussels, the Field Marshall had bitterly criticized the American's policy of advancing on a broad front -- as opposed to the narrow rapier-like thrusts advised by Montgomery. Patton's drive to the Saar River, he complained, was robbing him, Montgomery, of vital supplies; "jerky and disjointed thrusts" were equally impeding both armies and achieving nothing. At one point his language grew so unrestrained that Eisenhower, reaching out, patted Montgomery on the knee and rebuked him, "Steady Monty! You can't speak to me like that. I'm your boss. "Montgomery's mounting anger cooled. "I'm sorry, Ike", he said quietly.

But Eisenhower remained wedded to the broad front concept. "What you're proposing is this," he told Montgomery incredulously, "if I could give you all the supplies you want, you could go straight to Berlin -- right straight to Berlin? Monty, you're nuts. You can't do it... you'd have to throw off division after division to protect your flanks from attack... Suppose you did get a bridge across the Rhine, you couldn't depend for long on that one bridge to supply your drive..."As Eisenhower later recalled it, Montgomery argued: "Just give me what I need and I'll reach Berlin and end the war." Patton, equally cocksure, boasted, "If Ike stops holding Monty's hand and gives me the supplies, I'll go through the Siegfried Line like shit through a goose..."

Thus the stage was set for disaster from the first

But what worried him the most, says D'Antonio, is Trump's belief that he is genetically superior to most people in the world. In all of their conversations, he notes, Trump kept returning to the notion that by virtue of his birth, he is simply better than other people in many areas -- from playing golf to being a businessman. "I'm a big believer in natural ability," Trump said. His son, Donald Trump Jr., shares his father's conviction. He said he was a firm believer in the concept of breeding, in "race-horse theory." Then he pointed at the ceiling with his finger, in the direction of his father's office. "He's an incredibly accomplished guy, my mother's incredibly accomplished, she's an Olympian, so I'd like to believe genetically I'm predisposed to (be) better than average."
